ART WITH MOVIES I

Age : 3.5 – 5 Yrs

Timing : 10:00 – 11:15 am

Course Fess : INR 4250

Faculty : RainbowFish

Our younger students explore new mediums as they make artworks on themes like coral reefs, dragons, toys, jungle landscapes and so much more in this course. Each class is based on a movie like Finding Nemo, How to Train Your Dragon, Toy Story, Madagascar and many more. While the movies provide the theme, the artworks will bring out their own individual styles as they learn new skills and techniques. The 4-year olds draw a single object, animal, fish or plant and have an open colour palette. They work with collage, oil pastels, wax crayons, tempera paint and water colours. The 5-7 batch works on the same movie themes but create scenes thinking about composition, not just single objects. They also use dry pastels, charcoal and some paper craft as well.

Timing : 11:15 – 12:30 pm

Course Fess : INR 4250

In this course we will create more tactile art. In an attempt to push the boundaries of texture and pattern students will use techniques from print-making, collage and layering techniques to create work that both literally and visually breaks out of the flat surface of painted paper. Of course will also practice elements of scale, proportion, contour drawing and other art fundamentals.
